POLITICS AND THE LOTTERY

How are politics in the State a
 question that should interest ever
 self respecting man in it at this time?
 Will the dark side of government con-
 tinue uppermost and the villainies of
 the past appear in the legislature of
 the present to give courage to villainy
 in the future or will a better and
 more civilized system make its appear-
 ance through the action of the legis-
 lative body that will convene at Car-
 son to-morrow? Will the sum of all
 villainies which is ought to be fast-
 ened upon the State continue the
 darkness of the past by keeping it in
 bondage to corruptionists and the
 corrupt element there is in it, whose
 object at this time is the same as it
 has been to keep the State where it
 can be controlled to serve the uses of
 the lawless and vile element there is
 in society. The object of a corrupt-
 ionists is to control by lowering the
 standard of moral rectitude where he
 is, by making a legalized system of
 moral depravity, and when unable to
 legalize, to secure the means in other
 forms to degrade and brutalize com-
 munities.

Will the more civilized and enlight-
 ened in the legislature permit them-
 selves to be used by a class, whose pur-
 pose is to degrade and secure control
 of the future through a system that
 can only tend to evil in every form
 possible for it to make appearance?

The people of Nevada are deemed ig-
 norant and low in instinct by those in
 better and more pure communities,
 which is explained by the low and im-
 pure practices that are in the State se-
 cured through the love of money act-
 ing upon vile men. It is, and has
 been the case of those men to secure
 political position to their class, to the
 exclusion of upright men whose indi-
 viduality they fear.

The low work in politics presents
 the public side of the State to those
 who have no knowledge of the home
 life of our people and the standard by
 which our intelligence and morals is
 measured is furnished by us through
 our neglect to attend to the duties
 that would protect our good name
 abroad. Our measure intellectually
 and morally is furnished to those
 abroad by the element who favor lot-
 teries, prize-fights and other legalized
 iniquities and our best people are
 measured by these standards and are
 thrown aside as unfit for decent people
 in other communities to associate
 with in the light of a clear day.

Two years ago the people had a sur-
 feit of political rottenness, the ragged
 ends of which have appeared in the
 lottery scheme. The leaders in that
 vile body succeeded in securing, to
 further demoralize the State, an
 amendment to the constitution to
 legalize their demoralizing work and
 bring upon the State the darkness of
 the dark ages, which belongs to and is
 a part of the system through which
 their work is accomplished.

The law for the protection of the
 purity of elections was repealed to
 allow the use of money openly in the
 purchase of votes, and to permit of its
 use in any manner required to brutal-
 ize the people. The element whose
 dark work rests like a pall upon the
 State had an unusual success two
 years ago, and they became drunken
 over it and made an effort to entail
 upon the people an iniquity that an
 enlightened world has condemned.
 These men are at this time openly
 declaring that the lottery amendment
 will pass the legislature, whose mem-
 bers are coming together to receive a
 feast from rotten borough victors,
 as they claim to be in a rotten borough
 legislature, as it is claimed by them to be.

The last election was not a rotten
 borough election, as it was one of the
 most pure elections that it has been
 the fortune of the State to have in it,
 and it may be well for those who re-
 ceived favorable recognition from the
 voters to remember that the people
 will not quietly let a violation of their
 expressed will pass as it has been a cus-
 tom to do, without a vigorous protest.

Should the expressed declarations of
 the people in their conventions be
 disregarded by members of the legis-
 lature for money, it will not only
 cause trouble to those who disregard
 them, but it will, as it should, place
 the party in a majority in the State in
 a minority, as no good citizen will
 care to be identified with a party in
 the State that is run and directed by
 men who openly practice within its
 lines rotten borough methods to secure
 the success of a lottery scheme, sup-
 ported by foreign capital and directed
 in the interest of men who will have

no care for the State, present or future,
 except to use it to continue their vile
 work upon the country.
 The open declarations of the men
 who are directing the lottery business
 have caused the strictures which are
 made in this article, under the pre-
 sumption that it may be possible that
 money has been received in silence by
 those who will be members of the
 legislature, and who are, like a ma-
 jority of the newspapers in the State,
 keeping silent for a consideration in
 hand paid, connected with a promise
 of more in the future, as a toll price
 for their silence.

SAGEBRUSH
 OCCURRENCES

What Nevada Papers Say About
 Happenings in This
 State.

An epidemic of tonsillitis prevails
 in Hawthorne.

It is stated on the best authority
 that within the last ten days there
 have been seven cases of smallpox at
 Wells.

The Attorney General has rendered
 his opinion that Storey county is en-
 titled to four Assemblymen and one
 Senator.

The Commissioners of Nye county
 have fixed the tax rate for the year
 1901 at \$1 on each \$100 of taxable prop-
 erty in Nye county.

Will Adams, an Elko boy, was mar-
 ried in Anaconda, Montana, on the
 10th of this month to Miss Azalina
 Desourdie. They will make Butte
 City their future home.

Business continues slack on the
 Central Pacific and another freight
 crew has been taken off. It is ex-
 pected that the strike of coal miners
 at Scofield, Utah, will cause a further
 reduction.

ABOUT MINE
 AND MINER

Notes Gathered From Exchanges
 About This Indus-
 try.

Con. Virginia has dropped back to
 \$1.70. The bears are getting in their
 deadly work.

A wealthy corporation has been
 formed at Salt Lake city to explore
 eastern Nevada mines.

Tonepah, the new bonanza camp, is
 suffering from a whiskey and lumber
 famine. Other supplies are plentiful.

A report that men were in demand in
 Pioche caused fifty miners to journey
 to that camp in vain expectations.
 Work is plenty there, but so are appli-
 cants for work.

A deed has been recorded in the
 County Recorder's office at Belmont
 from John Centers of Berlin to J. A.
 Miller of Austin to all of his miner's
 and water rights situated in Union
 mining district, Nye county.

Geyser Playing
 at Steamboat

The proprietors of Steamboat springs
 have been engaged for several days
 boring an artesian well, and their
 efforts have been fruitful at last.

Yesterday afternoon they struck a
 three-inch flow, the force of the steam
 being so great that the water is forced
 over fifty feet in the air.

Recent reports that the springs had
 gone dry are unfounded. If you wish
 to witness a sight of wonder, just take
 a trip to the springs and see the great
 geyser.

"Midsummer Night's Dream."

When Mr. Louis James and Miss
 Kathryn Kidder play their engage-
 ment at the opera house, the bill will
 be Shakespeare's "A Midsummer
 Night's Dream."

The production made for Mr. James
 and Miss Kidder by their enterpris-
 ing young managers, Messrs. Wagen-
 hale and Kemper, is said never to have
 been surpassed in Shakespearean pro-
 duction.

Will Develop Mines.

The Nevada Exploration Company
 has been incorporated at Salt Lake
 City. It will explore and exploit
 Nevada mining claims. Oscar J. Smith
 of this city is one of the directors.

Don't Forget the Place—

JOHN SUNDERLAND'S, Virginia Street, RENO, NEVADA.

An Address to the
 Nevada Legislators.

THE fate of Nevada is hanging in the balance. Our Battle-born
 State hovers upon the verge of moral, political and financial
 ruin. A crucial moment has arrived. Either our common-
 wealth will rise to the grand possibilities that its statehood and
 resources warrant or it will plunge into the depths of oblivion, its
 charter snatched from it, become a thing of the past, a county un-
 der the jurisdiction of Utah or a territory governed at Wash-
 ington.

As Mr. Newlands well says: "Future legislation toward the
 State would be devoted to abating Nevada as a nuisance."

Of the thirty papers in the State—whose manifest duty is to
 guard its interests—all but four are alleged to have taken blood
 money and contracted to betray Nevada into the hands of a gang
 of conspirators who would throttle and plunder us under constitu-
 tional sanction. Any true citizen of Nevada who lends support
 and aid to these Judas sheets gives evidence of approbation of
 their course.

The officers of the State, who have sworn to guard its good
 name and further its welfare, are not all, like Caesar's wife, above
 suspicion. There are several honorable exceptions, but the bal-
 ance of the outfit have joined hands with the black masked
 gang. If this be not treason the word is idle of meaning.

Men of the Nevada Senate and Assembly, you have been
 chosen to positions of trust and honor. You have taken solemn
 pledge to support the platforms of your parties, which speak the
 will of your constituents. Are there any among you who hold
 truth and virtue of minor consequence? Will any of you be sold
 as slaves and chattels like the mercenary press that have dis-
 graced the State?

Stand firm! You can save Nevada's good name and state-
 hood and a grateful people will hold you in honored remembrance.
 Stand firm, law makers of Nevada. stand firm!

ROCK SHARP'S
DEPARTMENT

The Journal's Expert Will An-
swer Queries Free of
Charge.

In this column the "Rock Sharp" of
this paper will hereafter answer with
intelligent judgment any reasonable
question concerning rock. Write on
one side of the rock only and do not
dare to insinuate that the "Rock Sharp"
habitually throws specimens out the
rear window and fills out blanks by
guess work. Specimens that make
good paper weights preferred.

Address all communications to
"The Rock Sharp," care of E. L. Stall-
ings, Reno, Nevada. Below are given
answers to a number of questions
which have reached this paper with
the request that a department such as
this be established.

J. R. T. Wadsworth:—Neither acids,
faucets, blowpipes or scales are
needed in the determination of the
character and value of rock. The up-
to date expert, in Reno at least, has
learned to dispense with cumbersome
formulas and processes such as are
still taught in schools of mining and
studied by a few old foggy mining
engineers like John Hays Hammond
and Jim Saltee. The instruments and
books you mention are altogether un-
necessary and are justly despised by
the true expert.

It is true that considerable appar-
atus is used by miners but it is
evident that these gentlemen, though
still to be regarded with some respect,
are behind the times. You should
try to get the following outfit:

One book of profound wisdom, one
sharp knife, one coat pocket lined with
gold (corduroy is also good, but is, as
the doctors say, unprofessional).

On duly memorized collection of
mineral terms including without fail
the following: "Hot Springs Forma-
tion," "Andesitic Breccia," "Adit Le-
vel," "Hobnob," "All same Wedge-
d," "General Fodder," "Fifty-foot
Leap," "Metamorphic Action," "Trac-
ing for Miles," "Big Black Dyke
North of Town," and "One on Me".

Of these by far the most important
is the last one. It is a book of pro-
found wisdom. It can be acquired by
careful observation of the counte-
nances of the experts who meet nightly
in the club room and hold im-
portant sidewalk symposiums on
Volcanic matter.
